Subject: Dec 9 Regional Haze hearing request

Jennifer,

On behalf of myself and Sierra Club's thousands of members and supporters across the state, I would like to request a hearing be held in response the supplemental Texas BART proposal recently issued in docket EPA-R06-OAR-2016-0611.

I understand the date, time and location have already been established but EPA Region 6 would like a hearing request submitted as well to move forward. As this is not a well established procedure- please let me know if there is any further instructions for this proposal or information needed to ensure that the hearing remains scheduled. I want to make sure the hearing date is confirmed.

Thank you,

Chrissy Mann
